

PALMER
College of Chiropractic

The Trusted Leader in Chiropractic Education®

brand guidelines

The Palmer College of Chiropractic logo, crest and tagline are protected by registered trademark (®).

No Palmer College department, club, organization, or outside business or organization, may use the Palmer crest, or any other Palmer logo, without written permission from Marketing & Communication.

CLEAR SPACE: Clear space (X) is the minimum distance around the logo that must be void of any text and/or imagery. This will protect the logo from any distractions within the layout. This same spacing applies for logos with taglines as well.

X = HEIGHT OF "P"

MINIMAL SIZES: Below are the minimal sizes for both horizontal and vertical Palmer logos for print and digital respectively. **When using a logo with a tagline, be sure to make it large enough so that the tagline is legible.** If that isn't possible, a logo version without a tagline should be used.

There are horizontal and vertical versions of the logo with respective color uses. Use the logo that's appropriate and the color combination that's best suited for the layout.

HORIZONTAL

PRIMARY LOGO:
PMS 269 / PMS 118

SECONDARY LOGO:
PMS 118

TERTIARY LOGO:
BLACK

PRIMARY LOGO:
PMS 269 / PMS 118

SECONDARY LOGO:
PMS 269

PRIMARY LOGO:
WHITE

VERTICAL

PRIMARY LOGO:
PMS 269 / PMS 118

SECONDARY LOGO:
PMS 118

TERTIARY LOGO:
BLACK

PRIMARY LOGO:
PMS 269 / PMS 118

SECONDARY LOGO:
PMS 269

PRIMARY LOGO:
WHITE

logo

TAGLINE

Use a logo with the tagline whenever possible. There are several combinations of logos with taglines, so use the one that works best for the space allotted. **When using a logo with a tagline, be sure to make the tagline large enough so that it's legible.**

Contact the Marketing & Communication Department if you have questions about the appropriate logo to use for a project. Following are examples of the Palmer Chiropractic Clinics logo and the Palmer Center for Chiropractic Research logo. Both have a horizontal and vertical version and the same considerations as the College logo are applied to their use:

To achieve a strong visual identity, the Palmer logo must be used accurately and consistently. Below are a few examples of incorrect logo usage. In general, **don't** redraw or otherwise recreate any elements, colors or spacing within the logo, and always consider legibility when placing the logo within a layout.

DON'T

Never rotate, slant or skew the logo or tagline.

DON'T

Never squeeze, stretch or distort the logo or tagline.

Never adjust approved colors within the logo or tagline.

Never change the proportions or spacing of the elements within the logo.

sed modipictem rempor accabo. Itas doluptae nonecta temquos dolupta esequunt resto ro et

Never encroach on safe space of logo. Maintain proper spacing.

Estem nobit parum-qui acilit laccuptamus eos

Never place the positive logo over a dark background.

color palette
